

Projecting Fertility: A history

Hania Zlotnik

Population Division/DESA

UNITED NATIONS

Projecting fertility in the 2000 Revision

Projecting fertility in the 2000 Revision

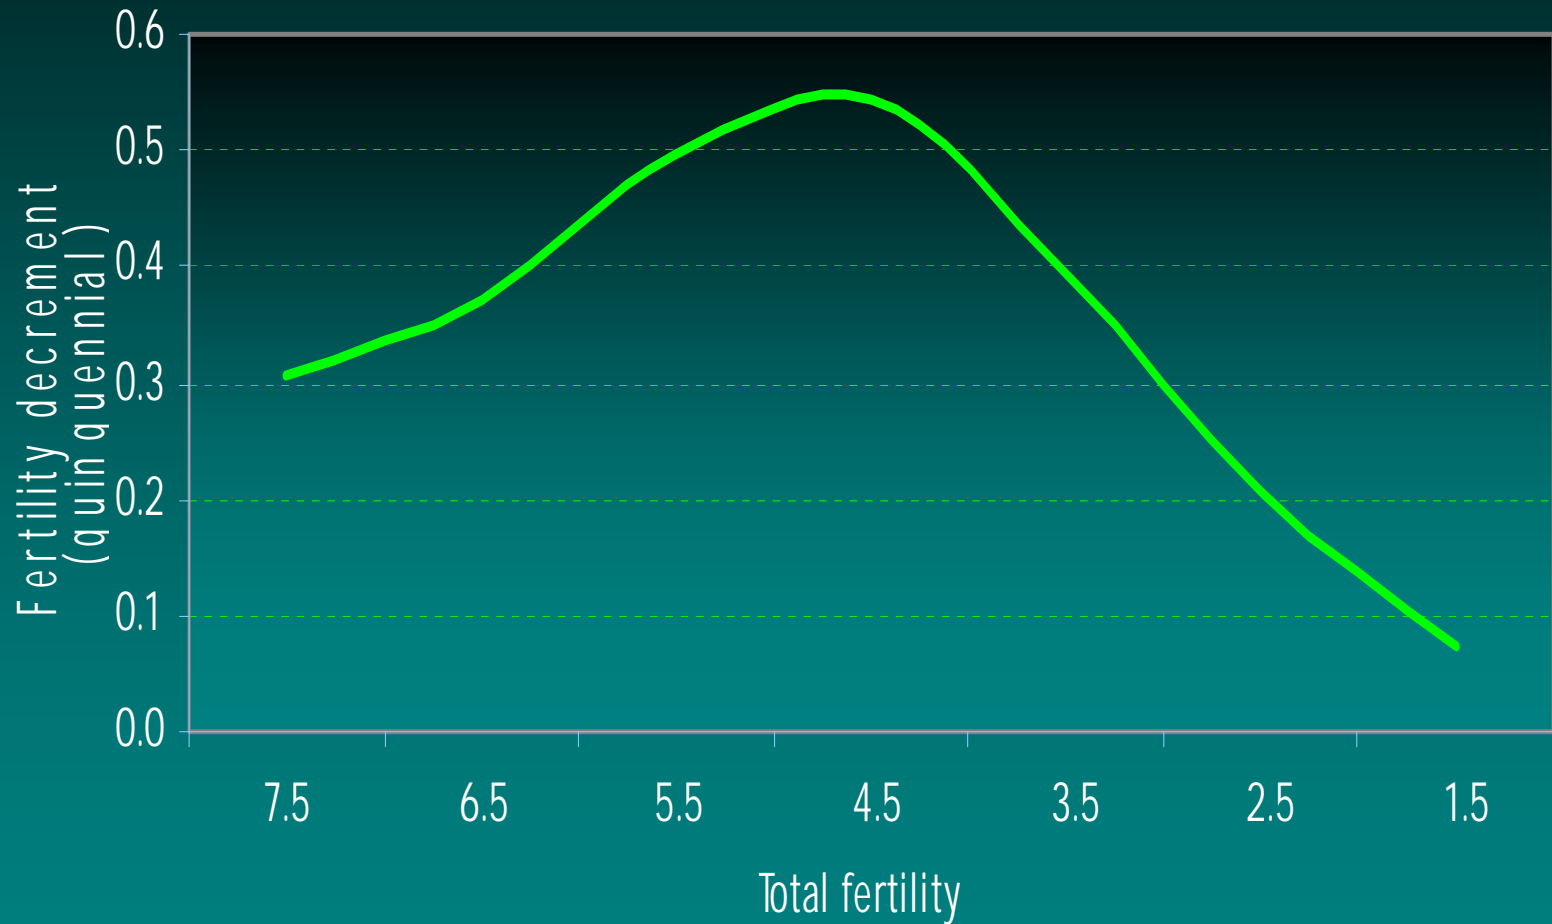

Fitting the relation between total fertility and fertility decrements

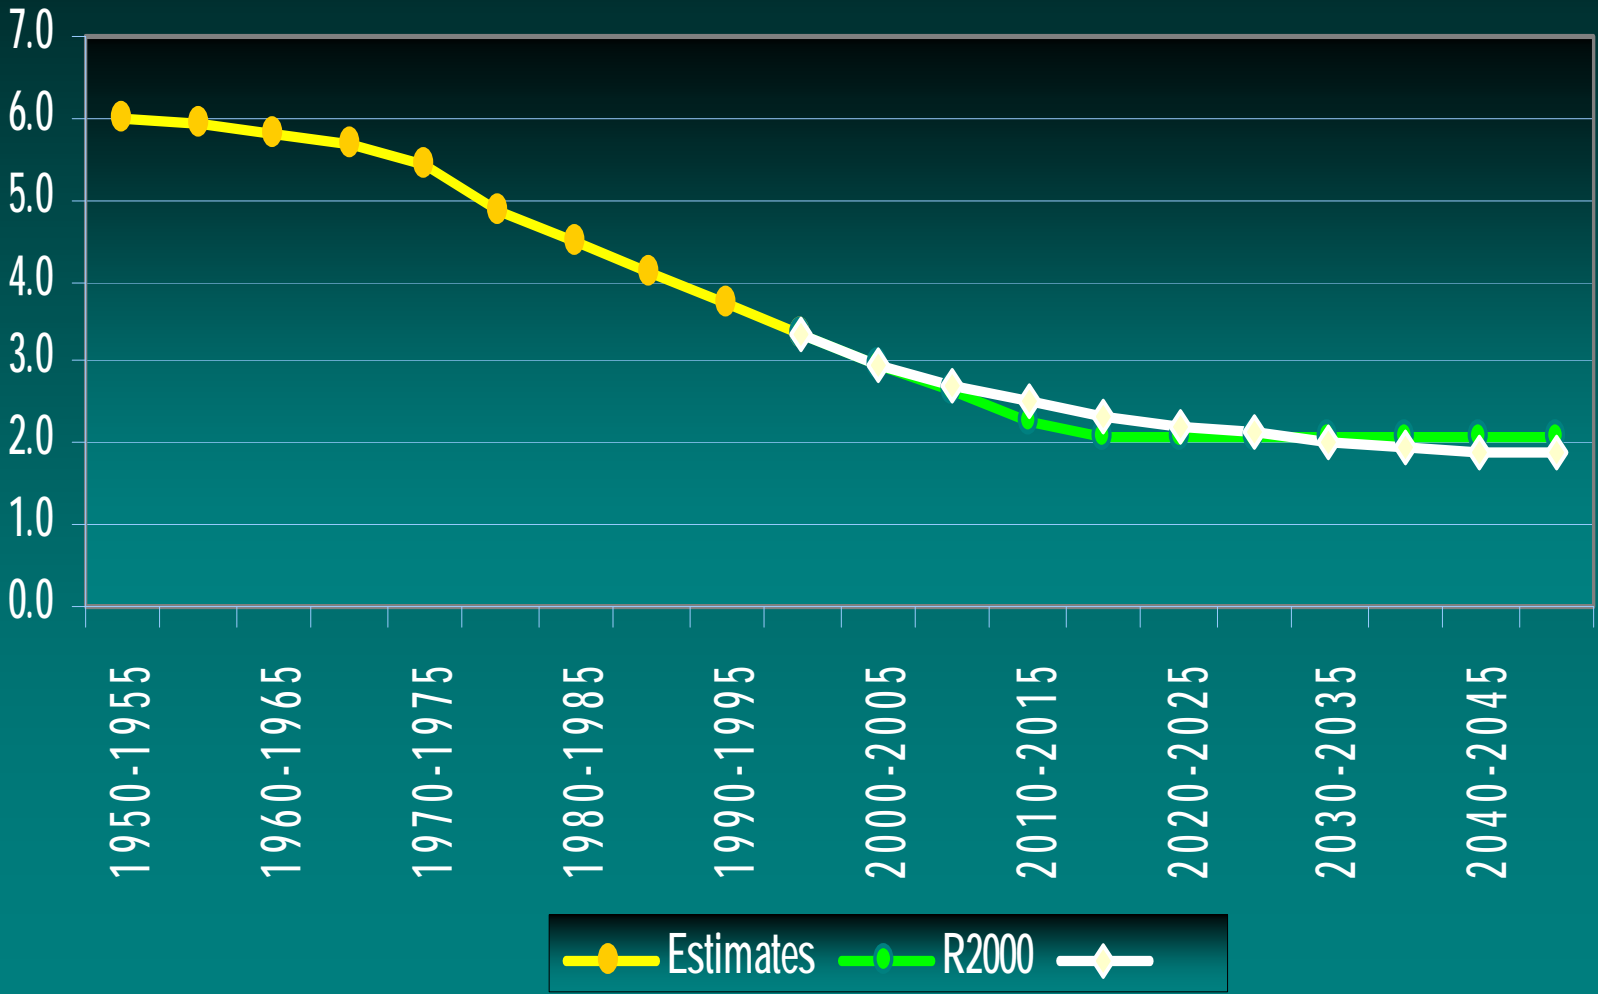

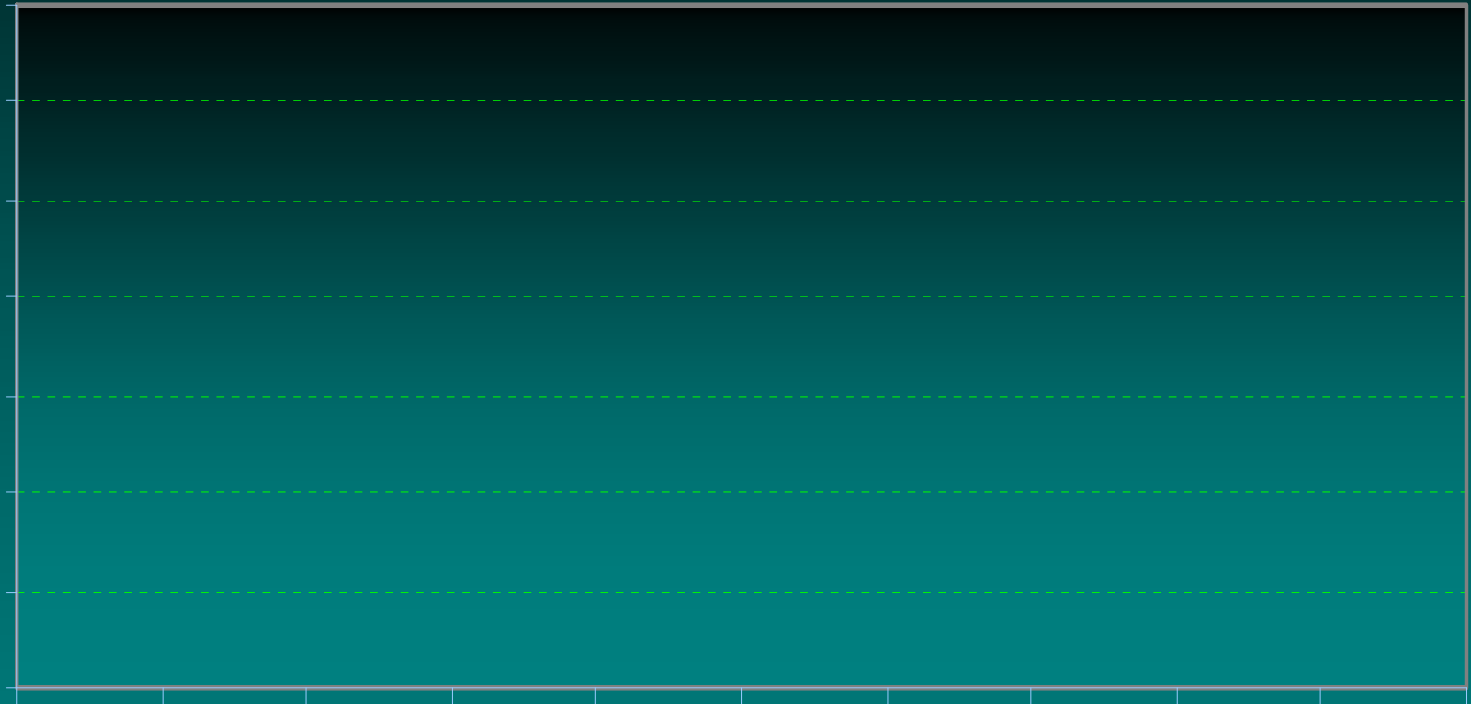

Median, used in 2002 Revision

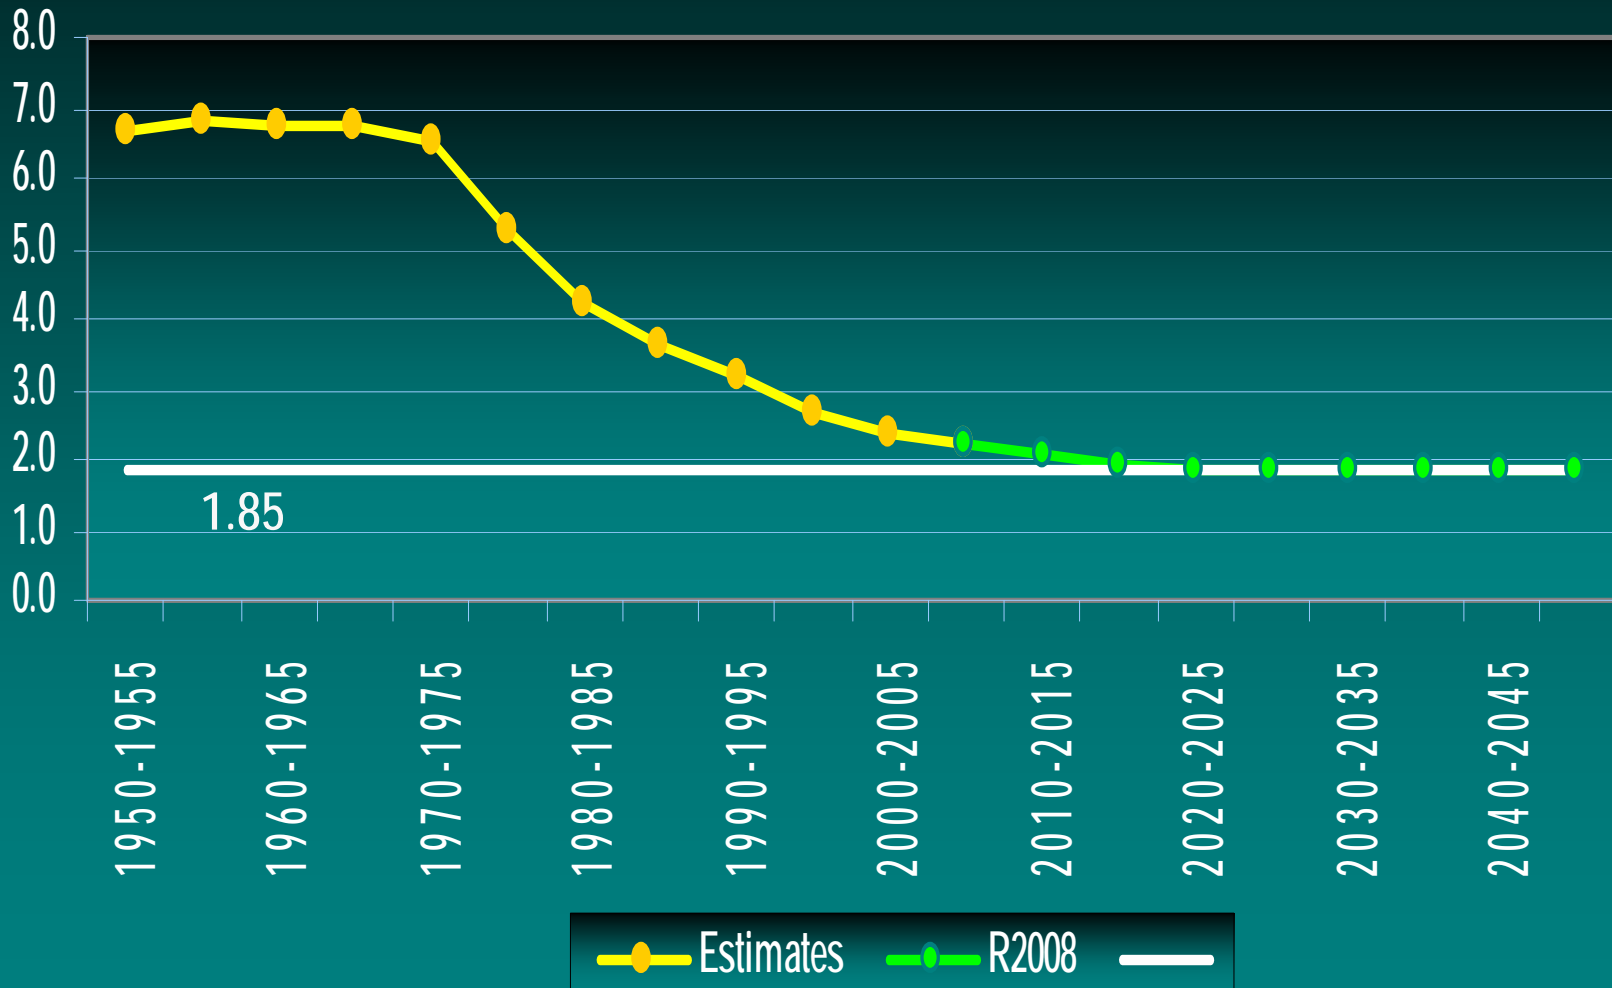

Comparison of 2000 Rev with 2002 Rev projections of total fertility

Double logistic models: 2004 Revision

Projection of total fertility starting above replacement

Some countries do not reach 1.85

A different approach is used
for countries where
fertility is already
below replacement level

Projection of total fertility starting at below-replacement level
