NATIONAL STATEMENT B :

MI KAREN TAN

Measures to Eliminate International Terrorism

ning/Afternoon

n,

Gentlemen/Distinguished delegates,

The King first time, would like to congratulate their national members of the committee for their election and wish them all the best for the work ahead.

n,

As a witness to the atrocities and terrorist acts inflicted on its victims and the lasting effects which are still present in various parts of the world.

The scourge of terrorism remains a major threat to international peace and security. Globalization and the widespread use of technology have led to diversity in the manner in which terrorism is carried out; from the traditional weapons of war to the new technologies which utilize modern technology thereby creating threats without borders. In addition, terrorists are able to create widespread fear and destruction from everyday items and dual-use goods such as fertilisers.

Nevertheless, international and regional conventions notwithstanding have been drafted to ensure that all citizens of the world, without exception, should be protected from the threat of terrorism and that the perpetrators of terrorism are accordingly brought to justice.

The Russian Federation condemns terrorism in all its forms and manifestations and believes that it should not be associated with any religion, nationality, civilization or ethnic group. The Russian Federation is a party to a number of international instruments and has duly implemented its legislative measures.
