Mr. Ambassador,  
Representative of the Government of the United States  
to the United Nations,

Subject: Report of the Working Group on Environment  
and Development

Mr. Ambassador,

As you well know, the report of the Working Group on Environment and Development, commonly known as the Brundtland Report, was presented to the General Assembly in December 1980.

Mr. Ambassador,

With respect to the recommendations of the Brundtland Report, the United States has consistently supported the following:

First, that the world's major industrialized countries take all the measures necessary to combat global warming and acid rain.

Second, that developing countries receive substantial financial assistance to help them combat global warming and acid rain.

Third, I like to add that "sustainable development" must mean "sustainable development."

In this regard, the DPRK delegation would like to draw your attention particularly to the following issues:
