T

A rectangular box containing the following text:
 This is a geological cross-section showing various rock layers and structures. The diagram is oriented vertically with 'I' at the top and 'O' at the bottom. A central vertical column is color-coded: green at the top, blue, purple, pink, yellow, and orange at the bottom. To the right, a rectangular box highlights a specific geological feature. Below this box, several horizontal lines with arrows point to specific layers, labeled with text such as 'Limestone', 'Sandstone', and 'Shale'. The background is a light pink color with a grid of small dots.
