As we move towards the development of the 'Pact for $\frac{3}{4}$ ummana

The Youth, Peace, and Security (YPS) agenda recognizes the pivotal contributions to the maintenance of international peace and security. First formalized by the UN Security Council in 2006, the agenda was strengthened by the UNSCR 2419 in 2018, which called for to treat young people as stakeholders in the pursuit of sustainable peace. The 2015 resolution (2015) outlines three pillars: (1) protection, (2) participation, (3) prevention.

of young people and their contributions to peace and security.

6

Implement regional science and technology development solutions, encourage international platforms for showcasing innovations.

Create a UN-supported digital platform for sustainable development solutions for young scientists.

Initiate local mentorship programs with experienced scientists for personal and professional development.

Implement national policies for youth participation in science and technology development, to foster innovation agendas.

Initiate regional science and technology development solutions that focus on showcasing innovations among young scientists.

Establish a UN-supported digital platform for sustainable development solutions for youth-led research projects.

Provide financial backing for innovative ideas in various scientific fields, connecting young scientists with experienced mentors for personal and professional development.

Encourage youth participation in science and technology development, to foster innovation agendas.

Strengthening Application of Science and Technology for Peace and Security

Science and Peace

The intersection of science and technology can make a significant impact. Youth-led initiatives can contribute to peace and security through innovation.

This area is explored but vital area where youth can leverage their potential to contribute to peace and security through innovation and leadership.

We acknowledge the significance of youth within the UN system and underwrite the recommendations of promoting meaningful, inclusive, and effective engagement of youth, youth-led and youth-focused organizations in the work of the United Nations as well as the proposal of negotiating the Declaration on Future Generations intergovernmentally, with the possibility of annexing the Declaration to the Pact for the Future.

To think and act in the interest of future generations, there is a need for the UN to facilitate negotiations that will call for UN member states to align government branches with youth-centric policies for better governance and resource distribution.

That the possibility of annexing the Declaration of Future Generations to the Pact for the Future be made mandatory, making this inclusion the first bold step to safeguarding the youth's future.

Reaffirm the importance of open, rights-based and self-organised youth engagement in the work of the UN.

Establish youth quotas for UN member states to increase the number of youth hired across various sectors.

Establish regional interagency networks on youth to increase the effectiveness of youth development efforts.

Allocate adequate resources to youth engagement mechanisms to facilitate meaningful and inclusive engagement that would avail safe spaces that encourage collective youth action.

Call for global leaders to attend youth-led forums such as the ECOSOC Youth Forum where member states can formally account for their actions to the youth.

Develop comprehensive or improved youth strategies.
